Profile

Motivated and passionate IT student currently enrolled in the 5th semester of BS Information Technology. I have 6 months of hands-on experience with React Native and specialize in mobile UI design and app portfolio creation. Eager to apply my knowledge and grow in a professional mobile development environment.

Professional Experience

• Software Developer

- Developed mobile applications using React Native for [specific projects or clients].
- Implemented frontend logic and UI components using JavaScript, ensuring high performance and responsiveness.

• JavaScript Developer

- Gained hands-on experience in JavaScript programming, focusing on modern frameworks like React Native.
- Collaborated with senior developers to build and deploy mobile applications meeting client requirements.

Education

24/01/2023 Continue…. Pakistan	**BS Information Technology** *Islamia University of Bhawalpur* Bachelor of Information Technology I currently enrolled in the 6th semester of BS Information Technology.

Skills

- **React Native** – Cross-platform mobile app development (Android & iOS)

- **JavaScript (ES6+)** – Core programming for app logic

- **React.js** – Web frontend development (if applicable)

➢ React Navigation **– Navigation between app screens**

➢ UI/UX Design Basics **– Custom styling using StyleSheet and third-party libraries**

Soft Skills

- Problem-solving and debugging
- Team collaboration (remote & in-person)
- Time management and project delivery
- Continuous learning and adaptability

Projects

1. Food App UI

A React Native app with dual-screen UI and functionality for addition, subtraction, and reset.

2. Travel App UI

Multi-screen travel app with Home, Destinations, Contact, and About screens. Used TouchableOpacity for navigation and stylish buttons.

3. My App UI

Designing a professional MyApp-like UI using React Native components and navigation.

4. Coding UI

Designing a professional MyApp-like UI using React Native components and navigation.

> ➢ (React Native || React.Js || Node.Js)

Experience

Currently seeking my first professional opportunity to work in the field of mobile app development.

Languages
